December 20, 2010

To Whom It May Concern,

I am a surgery resident who has used Denver Lincoln Limousine on a regular basis over the past 18 months to travel to hospitals along the Front Range for organ donor operations. Mr. Poppenberg is extremely professional. He and his drivers have been consistently, courteous, and attentive to detail. When there is an organ donor, I can depend on him to deliver me to my destination safely and on time. He continues to go the extra mile and he has a lot of pride in his work. He will not allow his drivers work when they are tired, even if it means losing revenue, which reflects the care he puts into the safety of his passengers and drivers.

Respectfully,

Max Wohlaue, M.D.

University of Colorado Dept of Surgery
