Dear Sirs:

Please accept my sincere regret for the unfortunate incident involving your associate several months ago at Denver International Airport (DIA) during a transport by Denver Lincoln Limousine, Inc. As City Council representative for the DIA area, I can assure you that the City is working diligently to address the circumstances that led to the confusion of our transportation policy. It certainly is not how the City of Denver treats its visitors and, definitely not how Denver Lincoln Limousine, Inc has grown to become one of Denver's premier executive transportation companies.

In addition, I wish to inform you that all charges levied against Denver Lincoln Limousine, Inc, resulting from the police stop, have been dropped. On behalf of Denver Lincoln Limousine, Inc, and the people of Denver, I ask you to reconsider your decision not use this valuable employer in our City. For over 20 years, Denver Lincoln Limousine, Inc and its owner\President Andy Poppenberg have been solid corporate citizens in our metro region. From all indications, its service to its customers has been exemplary; this incident should not reflect on its ability to provide excellent service to you and your company.

Please call me if I can be of assistance as you consider this request at 303/331-3872.

Respectfully,

Michael B. Hancock, Denver City Councilman
District 11
